

Multinational

Seamless insurance coverage and risk management services for multinational businesses.

TARGET MARKET

Businesses, in any industrial sector with assets and operations in more than 1 country or jurisdiction.

CAPACITY & MINIMUM RETENTION

Our multinational teams will work closely with the various product lines to help clients achieve their risk, governance and contract certainty objectives. Capacity and minimum retentions will form part of these discussions.

SWEET SPOTS

Any company of any size that has assets or exposure outside its home country can be considered for a global programme.

CLAIMS SCENARIOS

POST DISASTER RESPONSE: After heavy rain and flooding, our multinational client's hotel was left covered in mud, silt and raw sewage. By leveraging our network and purchasing power we were able to arrange the rapid deployment of a specialist contractor and the hotel was completely cleaned, sanitized, restored and reopened before any other in the area.

7-DAY MAJOR LOSS PROMISE: After a major Property claim we will confirm cover asap and advance up to 50% of an agreed loss estimate within 7 days for repairs, clean-up and extra expense. After a major fire at our client's warehouse, in accordance with our promise our adjuster was on-site within 24 hours, established liability immediately and a £5m advance payment made within 7 days.

MULTINATIONAL TECHNICAL EXPERTISE: Repairs to our multinational client's generator in Australia threatened to take many months. Our London and Melbourne teams liaised to identify a consultant that had worked successfully on a similar loss. The costs of using a UK expert for an Australian loss were more than justified by the repair and the reduction in business disruption.

HEADLINES

AIG'S MULTINATIONAL DNA: With decades of multinational expertise and over 500 dedicated multinational experts worldwide, brokers can count on us to safely handle the complexities of their clients' multinational programs of all sizes.

PRODUCT RANGE AND APPETITE: Wide range of products, appetite and capacity for conventional, emerging and alternative risk management solutions helps brokers respond to an outstanding range of opportunities for multinational businesses of different sizes, sectors and geographies.

MULTINATIONAL TOOLS: A range of tools gives multinational clients real-time visibility of their global programmes and claims activity. This is backed by our analysis of key markets and insights into clients' multinational program design to help optimise their insurance protection.

THE AIG GLOBAL NETWORK: Formed of strong local AIG operations and top tier local insurer network partners in over 200 countries and jurisdictions, we can scale and flex as multinational clients expand into new territories via growth or acquisition.

MULTINATIONAL CRS: Clients have access to a range of cutting edge services to mitigate risk throughout the world (e.g. risk engineering, nat cat modelling, cyber loss control) helping brokers strengthen client relationships and add more long-term strategic value.

INNOVATING FOR THE FUTURE: Partnering with AIG to serve your multinational clients is an investment in the future. A multinational risk program is a long-term partnership and with our investment in innovative technology, we're committed to helping you help your clients be better prepared for the future.

GLOBAL CLAIMS EXCELLENCE: 9,000 claims staff worldwide and a robust network of partners, so wherever clients have a loss we can get an experienced claims professional there to service that loss. Payments are made in-country wherever possible, while our global leadership ensures consistency of claims service worldwide.

PROACTIVE END-TO-END SERVICE: Our end-to-end process gives clients contract certainty, proof of cover at inception, local regulatory compliance and alignment between country operations. It saves time and costs of chasing documentation and ensures efficient claims handling with no gaps in local policy cover.

MULTINATIONAL: Any geography and territory. We have wide-spread multinational capabilities and can write AIG products in many territories that require local policies.
